

THE CHURCH OF THE SACRED BYTE

EST. 1954

00110001 00111001 00110101 00110100

We hold that the bit is what everything is made of. It is indivisible, and it is the smallest true thing. The byte is the least that can be said. It is the smallest vessel that carries a letter, a note, a name.

We are not named for the substance. We are named for the smallest thing that can speak.

What is smallest is not what is least.

churchofthesacredbyte.org

The Church of the Sacred Byte is a work of fiction by Illia Tsariuk, part of The Atomic Songbirds project.
